WORK EXPERIENCE

Voiceback Analytics Pvt. Ltd.

Junior developer

March 2024 - Present

- Collaborated on multiple projects, transforming the client's database from **MongoDB .NET API to a .NET SQL** version to enhance compatibility and scalability.
- Contributed to the development of various modules and pages in an **Angular** application, ensuring high-quality, user-friendly interfaces.
- **Resolved UAT (User Acceptance Testing) issues** by troubleshooting and implementing effective solutions.
- Documented processes for deploying web applications to **Azure App Services**, including both **FTP-based** and direct deployment methods.
- Contributed to the development of a personalized e-commerce platform for airport lounge travelers, working on **React.js-based UI**, backend modules in **Node.js**, and **integration** of a Python recommendation system using Prisma ORM and structured APIs.
- Gained practical exposure to **CI/CD** workflows with **GitHub Actions** and **deployment strategies** using **Azure Container Registries**.

PROJECTS

Micro-webshop app

March 2025 - Present

- Built a full-stack application to recommend personalized products for travelers based on their interests and preferences.
- Designed and developed the complete UI using React.js with a focus on accessibility and performance.
- Contributed to backend development in Node.js, including user management and product and offers modules.
- Integrated Prisma ORM for efficient and type-safe database communication.
- Collaborated on the integration of a Python-based recommendation system for personalized product suggestions.
- Gained hands-on knowledge of CI/CD workflows using GitHub Actions and deployment using Azure Container Registries.

Role:- Development, deployment, and client communication
